

Career Transition Guide

You have passed through the company's interview stage and been given an offer from the organization.

Congratulations!

Now there are just a few more obstacles between you and your new career. Handling the transition between your new job and your old one can be a difficult and delicate process. It is important to remember what your previous employer has done for you while moving quickly to your new opportunity successfully and without delay. This document provides a collection of resources for tackling the largest challenges in the career transition phase.
