

Position Description

Overview

Job Title **Plant Manager**
Location **North Carolina, Florida**

Details

With over 40 plants across North America, our client is the largest glass recycler on the continent and a top ten plastics processor. Our client is also the market leader in technological innovation, pioneering the use of cutting edge processing techniques in each material segment that it serves. **Opportunities are now available in Florida and North Carolina for Plant Managers** to operate in an accident free, profitable class processing facility.

Primary Responsibilities

- Provide focus for the plant by communicating plant goals and providing periodic reviews of plant performance to all employees.
- Track plant performance in the key result areas, identify plant weaknesses, and take necessary actions to improve performance.
- Maintain plant safety, production, quality, and personnel records.
- Maintain customer and supplier relations through regular contacts and by obtaining/distributing feedback on performance.
- Implement and maintain the plant quality system to ensure compliance with QIP requirements to improve customer service.
- Manage the plant safety and environmental program in compliance with SMI, OSHA, and other regulatory requirements.
- Train and develop plant employees to be able to perform the required job tasks.
- Manage plant freight and logistics to minimize costs and maximize utilization of assets.
- Oversee plant capital improvement projects to ensure compliance to budgetary and plant requirements.
- Identify opportunities to improve plant operations and focus resources to make and maintain improvements.
- Manage relationships within the community to ensure compliance with federal, state, and local regulations as well as establishing positive visibility within the community.
- Maintain personnel performance records.
- Perform weighmaster duties as required.
- Supervise plant drivers and yard personnel.

Basic Candidate Requirements

- Good communications skills.
- Basic computer operations including Microsoft Office products, AUTO 4000, and Maintain It.
- Training.
- Problem solving.
- Operations Management skills.
- Project management.
